

## Our Vision

A network of "Prayer Groups for Schools", spanning Australia, covering a whole generation of children and young people with prayer.

## Our Aims

To bring the needs of our students and their schools before God.

To support and encourage one another as parents and as Christians involved in the school.

To pray that each student will come to know the saving love of Jesus Christ.

To pray for principals, teachers, staff, parents and school bodies.

To pray that schools will be directed by Biblical values.

To be a Christ-centred positive and supportive influence in our schools.

Less than 5% of Aussie children are touched by the ministries of the local church today, but the Australian Bureau of statistics reports that 99% of Australian homes have a TV set and more than half of all divorces today involve children. What influences are shaping our young people today? Schools are the 'meeting places' for these children – a melting pot of values, experiences, personalities and facts. It is here that prayer needs to be focussed as we prepare a generation for the future.

*"If my people who are called by my name will humble themselves & pray and seek my face, and turn from their wicked ways, then I will hear from heaven and will forgive their sin and heal their land."*  
2 CHRONICLES 7:14

### What is it About?

"Prayer Groups for Schools" is about Christians from within and around a school community meeting together regularly to pray for the students and their school. Because young people are significantly shaped and moulded by their experiences at school, one of the great contributions Christian parents can make to their children over these years is to PRAY – not only for their own children, but also for other students in the school, the staff, and all aspects relating to the life of that school community.

### Who Prays

Concerned Christians from the school and community, e.g.

- Christian parents (and grandparents)
- Religious Education teachers
- Chaplains
- Christian teachers
- Students

### How Do I Get Involved?

You can be a part of this important network of "Prayer Groups for Schools". Start a prayer group for your school and urge other Christian friends to do the same.

A booklet entitled, "Prayer Groups for Schools" is available from SU. It outlines the vision and aims, and suggests ways of starting such a prayer group for your school.

### Can my Church get Involved?

Yes! Ask your church leaders to pray for those within your church family who are students, teachers and people associated with schools.

A brochure entitled, "Schools Sunday" is available from SU. It contains ideas about holding special services specifically related to students and schools.

### A National Movement...

"Prayer Groups for Schools" has experienced amazing growth in every state and territory in Australia. How encouraging and powerful it is when groups meet together in unity to pray. Members of such prayer groups gather together yearly for a "National Day of Prayer" to pray for the young people of the our nation.

**You can be part of this network too.  
Let's pray together for our children.**
