

# Child Protection Policy

## Policy Statement

At SU QLD we firmly believe that every child and young person matters deeply to God and deserves a safe and meaningful life. This is why we are committed to safeguarding the social, emotional and spiritual wellbeing of all children, young people and families in our care.

This Child Protection Policy (this Policy) demonstrates our commitment to proactively nurture a child safe culture and working environment.

All our staff and volunteers understand the role they share in upholding this commitment, and everyone is empowered and equipped to champion a child safe culture in bringing hope to a young generation.

## Scope

All children, regardless of their gender, race, religious beliefs, age, disability, sexual orientation, or family or social background, have equal rights to protection from harm and abuse. The Royal Commission into Institutional Responses to Child Sexual Abuse advises that a child safe organisation has competent and committed leadership and governance which develops and maintains a child safe culture ([Interim Report 2014, Volume 1, p 141](#)). Therefore; for the Child Protection Policy (this Policy) to be effective it must require awareness at all levels of the organisation.

This Policy applies to all SU QLD employees, volunteers, contractors, interns, consultants and training students (SU QLD associated person/s). It requires a commitment to shared personal responsibility to ensure children are protected from all forms of harm and abuse, and an undertaking to consider the opinions of young people, children and parents, and use their opinions to enhance our child protection practices and procedures.

All SU QLD associated persons are also expected to abide with the SU QLD [Code of Conduct](#) and relevant SU QLD Policies and Procedures as they relate to the professional standards and conduct expected from everyone who comes in the scope of this Policy.

## Commitment

We will:

1. Take preventative action by having a regularly reviewed Child Protection Policy in place, supported by a communications strategy to communicate changes;
2. Work proactively to raise child safety awareness in the areas we operate, and implement/enhance policies and procedures to mitigate risk;
3. Respond immediately and appropriately where child safety concerns arise;
4. Empower everyone including children and parents, to have a say in our efforts to enhance child safe practices and procedures;
5. Foster a culture of transparency that supports all persons to safely disclose harm, or risks of harm;
6. Respect diversity in cultures and child rearing principles while keeping child safety as the overriding consideration;

7. Question, and continuously improve, our recruitment screening practices to safeguard selection of only the most suitable people to work with children;
8. Report suspected harm, abuse, neglect or mistreatment without delay to the appropriate authorities;
9. Comply with relevant legislation;
10. Adhere to the Standards and applicable recommendations as detailed in the [Final Report – Royal Commission into Institutional Responses to Child Sexual Abuse](#).

- Must report any suspicion that a child or young person's safety may be at risk to their supervisor (or, if their supervisor is involved in the suspicion, to a responsible person in the organisation); and
- Must provide an environment that is supportive of all children and young people's emotional and physical safety.

## Recruitment and Selection

SU QLD undertakes a comprehensive recruitment and screening process for all employees, volunteers, contractors and interns. Our recruitment and screening processes aim to:

- Promote and protect the safety of all children and young people under the care of SU QLD;
- Identify the safest and most suitable people who share SU QLD's values and commitment to protect children and young people; and
- Prevent a person from associating with SU QLD if they pose a risk to children or young people.

## Risk Management

SU QLD will ensure that child safety is a part of its overall risk management approach. Risk oversight, compliance and controls, are stipulated in the [Risk and Compliance Policy](#). Members of Risk Management committees will receive training in relation to child safety.

## Reporting

We always act in the best interests of children and young people. If we become aware of a situation where actual or potential harm to a child or young person exists, we are required to immediately report this situation as per the required process (to be added). We will also perform an initial risk assessment (and subsequent regular risk assessments) to identify and minimize any risks to a child or young person and take preventative and/or remedial action as necessary and without undue delay.

In such instances, if a child or young person has disclosed or appears intent to disclose this information to us we should inform the child or young person about the limits of confidentiality, purposes for which the information is obtained, and how it may be used. Wherever practicable it is preferable for this to be done prior to the child or young person's disclosure. SU QLD however acknowledges that this may not always be possible.
